Guideline Requirements

COLLATERAL

General	Property must be in average or better condition. Properties in C5 or C6 condition are not acceptable. Deferred maintenance is allowed subject to the requirements below.
Deferred Maintenance	CMS permits appraisals to be based on the “as is” condition of the property provided existing conditions are minor and do not affect the safety, soundness, or structural integrity of the property, and the appraiser’s opinion of value reflects the existence of these conditions. Deferred maintenance is typically due to normal wear and tear from the aging process and the occupancy of the property. While such conditions generally do not rise to the level of a required repair, they must be reported. Examples of minor conditions and deferred maintenance include worn floor finishes or carpet, minor plumbing leaks, holes in window screens, or cracked window glass.
Property Repairs	All property repairs must be completed prior to closing. Escrow holdbacks are permitted for new construction landscaping. Escrow holdbacks are not permitted for any other reasons.
Appraisal	1 Full appraisal required. Exterior and Interior inspection. Color photographs required.
Appraisal Review	The Appraisal Review Process requires a secondary due diligence product to support the appraised value for the transaction. Acceptable products include: <ul style="list-style-type: none"> • FNMA Collateral Underwriter score ≤ 2.5 for LTVs ≤ 80% • Desk Review (must contain a value and comparative sales data to support the valuation result) • Second Full Appraisal The following require a Desk Review (CU Score not permitted): <ul style="list-style-type: none"> • CU Score > 2.5 or • LTV > 80% The following require a Second Full Appraisal: <ul style="list-style-type: none"> • Loan amount > \$1,500,000 • Flip Transactions When two appraisals are required, the lower of the two values must be used to determine value. Appraised value ≥ \$1,500,000 requires a Carrington Capital Management (CCM) review. When two appraisals are present the lowest value is used. Desk Reviews and Second Full Appraisals, when required, must be ordered from a CMS-approved AMC. A Second Full Appraisal must be completed by a different certified or licensed appraiser than the one who prepared the first appraisal. CMS reserves the right to request additional appraisal products at our discretion based on review of the appraisal and loan file. See the Carrington Investor Advantage Program Guidelines for full details on available review products.
Appraisal Re-Use	Re-use of an appraisal inspection report is not permitted. Appraisal inspections must be specific to the CMS loan transaction.
Appraisal Updates	Permitted. Follow guidelines and acceptable extension dates. The appraisal may be no older than 240 days at closing with an appraisal update.

ATTACHED CONDOS: Appraisal must contain 2 comparable sales from subject's project in addition to the current comparable sale requirements. See Carrington Investor Advantage Program Guidelines for condominium specifications.
Short Term Rentals	Short term rental properties may not be modified in a way that affects the residential character of the property. For example, parking lots and reception areas are not acceptable. Examples of short-term rentals are Air BNB, Vacation Rental By Owner (VRBO), etc. Short term rentals of less than one month in term will be qualified as an unleased property unless the borrower is able to demonstrate a 12-month history of rents on the subject property. The borrower may provide documentation from their property management service documenting 12 months gross rents. Determining the Loan-to-Value - Refer to Additional LTV Limits chart. The Debt-Service Coverage Ratio (DSCR) must be calculated using the lesser of the documented rents from the property management service or the appraiser's estimate of market rents.

TYPES OF FINANCING

<p>General Refinance Requirements</p>	<p>Rate/term refinance and cash-out refinance transactions are allowed. All investment property refinances require an appraisal review product. See Appraisal Review Process for detailed requirements. Determining Loan-to-Value If the subject property was purchased between 6 months and 12 months from the note date of the new mortgage, the current appraised value may be used to determine the loan amount when two full appraisals are obtained. The lower of the two values must be used. If the property was purchased < 6 months from the note date of the new mortgage, the lesser of the current appraised value or the previous purchase price plus documented improvements (if any) must be used. The purchase settlement statement and any invoices for materials/labor will be required.</p>
<p>Rate & Term Refi/ Limited Cash Out</p>	<p>No seasoning of first mortgage (no minimum number of payments required on current mortgage). If value has increased more than 15%, photos of improvements are required. Maximum cash in hand is the lesser of 2% of the principal of the new loan amount or \$2000. Closing Disclosure (CD) or HUD-1 settlement statement, as applicable required from any transaction within past 6 months. If the most recent mortgage transaction was a cash-out refinance within the last 6 months, the new mortgage must be processed as a cash out refinance. If new transaction combines a 1st and non-purchase money 2nd into a new 1st loan, it is considered cash out. Must demonstrate there is a Benefit to the borrower by utilizing the CMS benefit to borrower form currently in use through Encompass for refinance transactions.</p>
<p>Listed For Sale or Purchase</p>	<p>To be eligible for either a rate/term or a cash-out refinance, the subject property must be taken off the market on or before application date, provide a letter of explanation for the MLS listing and statement of intent to retain the property for 12 months after closing. For cash-out transactions, if the subject property was listed for sale in the 6 months prior to application date, a minimum 2-year prepayment penalty* or 10% LTV reduction from the maximum available for the specific transaction is required. The lesser of the most recent list price or the current appraised value should be used to determine loan-to-value for both rate/term or cash-out transactions. *Note - Prepayment penalties may only be applied to Investor Loans and may not be used in AK, DE, MD, NJ, NM, or VT. Prepayment restrictions may exist in other states. Please refer to the state-specific matrices for details.</p>
<p>Cash-out Refinance</p>	<p>For all cash-out refinance transactions: at least one borrower must have been on title a minimum of six (6) months prior to the new note date unless the requirements for Delayed Financing are met. Note date to note date is used to calculate the 6 months. For cash-out refinance transactions where the property is currently vested in a trust or LLC, the borrowers must have owned the property in the name of the trust or LLC for at least six (6) months prior to closing. Note: Properties removed from a Trust are not required to meet the title seasoning requirement if the property moves from the Trust to the owner of Trust and 6 month seasoning is met in the Trust. There is no waiting period if the borrower was legally awarded the property through divorce, separation, or dissolution of a domestic partnership.</p>
